

KRL Group Ltd

KRL Group Ltd are a service-led office and business solutions provider based in Willerby, Hull. Formerly known as Kingston Reprographics, they changed their image after a management buyout in 2009.

2010 sees the company celebrate 25 years in business and, despite the changes, they are still constantly developing and stamping their mark across Yorkshire. Now with Business Development Manager Kara Ellison on board, nothing can stop them.

Kara says, "In the current climate every business is looking to save money, but many companies overlook their printing and copying costs. We speak to different types of businesses every day and find that nine times out of ten, we can save them money – it's really worth looking at!"

KRL Group know that every customer's needs are different which is why they tailor a print management strategy to suit your needs – helping you to plan ahead and consider the bigger picture.

Hull Enterprise Partnership

Two years of the Hull Enterprise Partnership have seen some sixty businesses being set up by entrepreneurs, and more than a hundred jobs created despite the current economic climate.

HEP, backed by the European Regional Development Fund, has been helping people in the HU1-HU9 areas to go it alone, providing key advice including developing business plans and sourcing funding opportunities. It also offers a free environmental consultancy to help small firms cut their energy costs.

Over the past year, HEP has helped people set up a fancy dress shop, Pilates business, electrical firm, Muslim wedding match-making service, an environmentally-friendly cleaning co-operative, and a clothes alteration business.

It also staged the Enterprise Den in 2010, which gave fledgling businesses a chance to bid for funds to develop their business ideas, with the £3000 cash prize fund donated by city firms.

Cobus Communications Group

The Cobus Communications Group were proud to support the 2010 Expo as venue sponsors for the second year. Offering great opportunities for networking, the event proved again how important face to face contact is with customers. It also provided a great opportunity to promote their latest products and services, as well as explaining more about their Hull telephone lines and calls service – the genuine alternative to KC (Kingston Communications) to many people, including none other than Graham Stuart MP himself.

As the region's leading provider of business telecommunications and IT support services, Cobus are pleased to announce that once again they are venue sponsors of the East Yorkshire Business Expo at Brantingham Park, Elloughton on Wednesday 29th September. They are also principal sponsor in support of the Bridlington and Wolds Business Awards on Friday 19th November at Bridlington Spa.

They are not just any communications company – they are Cobus Communications.

SS Testing Ltd

SS Testing Ltd offer PAT testing, as well as testing and maintenance of fire extinguishers, fire alarms and emergency lighting.

Portable appliance testing, commonly referred to as PAT Testing, is a routine service whereby all movable appliances are checked and tested, in accordance with the Electricity at Work Act 1990 and the Health and Safety at Work Act 1974.

Fire extinguisher maintenance includes checking the extinguishers themselves are physically in good condition and ready for use. Meanwhile, emergency lighting tests ensure lights remain fully functional during mains electrical failure and that all lighting is up to date with the current legislation.

Failure to undertake and hold a written risk assessment is a criminal offence, and along with fire alarm testing, SS Testing Ltd can also design, install and commission a non-addressable Fire Alarm System, and supply and replace Call Points, Detectors, Sounders and non-addressable Panels, with a 24 hour emergency call out service.

GROW in Hull

GROW began with the aim to support the 80% of Hull's JSA claimants who constantly churned in and out of work, never sustaining a contract and never acquiring the skills to help them do so. GROW Local Work Guarantee provides three months' guaranteed employment in a community setting, followed by generous long term wage subsidies for employers prepared to create a training plan taking staff to a minimum level 2 qualification.

GROW Local Work Guarantee's success led to the development of four further GROW projects. GROW Employment Sustainability supports employers to help sustain

employment contracts once participants have moved into work. GROW Into Work Into Business is a flexible fund to help businesses retain staff under threat of redundancy to or move to an alternative job.

GROW Redundancy Response provides a job matching service aimed at both employers and their potential employees. GROW Future Jobs Fund provides guaranteed temporary employment opportunities, primarily for long term unemployed 18-24 year olds.
